CONFERENCE VISION

We all work tirelessly to find, feed and befriend the hungry and hurting. We envision a world in which the last person in need has been found and cared for; but that seems so far off, maybe even impossible. Then God places that next person, family or village in our path and we are compelled to come alongside of them. This deep sense of compassion strengthens and compels us to take action, and we do. We are committed to continue this work, as long as we are able.

In the book of Acts, Chapter 2, Luke describes the day of Pentecost. The apostles had gathered together, and in one significant moment, they were equipped and enabled by the Holy Spirit. That moment sparked a mission that would forever change the world. We continue that mission of feeding those "Hungry in Body and Spirit."

During Partner Conference 2017, we will deepen our understanding of what it means to be "enabled."

Enabled: (Dictionary.com)

- *to make able; to give power, means, competence, or ability to; to authorize*
- *to make ready; to equip*

This fiscal year FMSC will produce 280 million meals. We are working to develop our packing operations to produce an annual output of 500 million meals. To do so, we will be exploring new ways of expanding our collective capacity and extending our global reach. We believe that the "next 250 million" meals is what God has called us to, and we cannot do it without you.

As FMSC pursues the "next 250 million," we come together at *Partner Conference 2017: Enabled* speaking a common language to further the work that lies ahead in a world that is full of challenges. CROPPS Solution Providers will be featured presenters to give you up-to-date information

on their organizations and the practical tools they have to share with you. You will also hear the latest on the Total Delivered Meal Cost (TDMC) project that has great potential to reduce the cost to you, along with other program advances designed to help you reach more.

So come, you are invited to be in the same place, at the same time, in a fellowship to build on the language of compassion that binds us together.

"When the day of Pentecost came, they were all together in one place." – Acts 2:1

Onward,

Matt Muraski, Vice President of International Programs and Supply Chain
